

Upcoming Events:

Society of Neuro oncology, 2015

Date: 19 November 2015 - 22 November 2015, Texas

AHERF to participate in Society of Neuro oncology 2015 to be held in San Antonio, Texas.

Apollo Hospitals Educational and Research foundation (AHERF) to present data on one of its flagship programs "Exosomal characterization of brain tumors". Epidermal growth factor receptor (EGFRvIII) and Phosphatase and tensin homolog (PTEN), detection through serum exosomes, AHERF will be presenting data at the poster sessions from its Neuro oncology program at the 20th Annual Society of Neuro Oncology (November 19-22, San Antonio, Texas).

Poster Presentations

EGFRvIII

Title: "Exosomal and clinical analysis of EGFR amplification and EGFRvIII expression in Indian glioma patients,"

Session Category: Circulating biomarkers in CNS tumors (DNA, exosomes, tumor cells, platelets, other)

Abstract Number: 0529

PTEN

Title: Exosomal PTEN detection in Glioma patients

Session Title: Circulating biomarkers in CNS tumors (DNA, exosomes, tumor cells, platelets, other)

Abstract Number: 0535
